

Grantee Contact Information

As part of the requirements for participation in the NFMC Program, all grantees are required to validate their organization's contact information. All communications with NFMC Grantee staff will originate with the contact information maintained in the Data Collection System. Anyone from your organization who has a Data Collection System account may review, modify, disable or add contact information.

Before your organization will receive its first draw of your NFMC Round 4 funds, you must update your contacts in the NFMC Data Collection System. The system will be able to receive your updates on or before April 30, 2010. A notice of this and directions will be sent to all grantees and a WebEx session will be held to assist your organization with any questions you might have about contact management.

If you are a new participant in the NFMC, please contact us (nfmc@nw.org) for assistance with account setup to the Data Collection System.

If you have any questions, as always please send them to nfmc@nw.org
